

Worksheet 1: Finding and Using Rate

Primary 5 Foundation Mathematics

Core Topic: Rate

Instructions: Show your working in the box provided and write your final answer in the space given.

Name: _____

Date: _____

Score: _____ / 20

Section A — Finding a Rate (Q1-5)

1. Farah read 35 pages of a book over 7 days. Find the number of pages she read per day.

Working:

Answer: _____

2. A printer produced 55 copies in 5 minutes. Find the printing rate per minute.

Working:

Answer: _____

3. A car travelled 10 km using 2 litres of petrol. Find the rate of travel in kilometres per litre.

Working:

Answer: _____

4. 4 m of carpet cost \$12. Find the cost of the carpet per metre.

Working:

Answer: _____

5. A cyclist covered 54 km in 3 hours. How many km can the cyclist cover in 1 hour?

Working:

Answer: _____

Worksheet 1: Finding and Using Rate

Primary 5 Foundation Mathematics

Core Topic: Rate

Section B — Using a Rate to Find a Total (Q6-10)

6. A machine packs 8 sweets per minute. How many sweets can it pack in 6 minutes?

Working:

Answer: _____

7. Each container holds 5 marbles. How many marbles are there in 2 such containers?

Working:

Answer: _____

8. A factory produces 13 toys every hour. How many toys can it produce in 3 hours?

Working:

Answer: _____

9. A tutor is paid \$50 per hour. How much will she earn after tutoring for 2 hours?

Working:

Answer: _____

10. A hose sprays 4 litres of water per minute. How many litres will it spray in 6 minutes?

Working:

Answer: _____

Worksheet 1: Finding and Using Rate

Primary 5 Foundation Mathematics

Core Topic: Rate

Section C — Finding and Using a Rate (Q11-15)

11. A washing machine used 42 litres of water for 3 loads of laundry.

(a) Find the number of litres of water used per load.

Working:

Answer: _____

(b) Find the number of litres of water used for 5 loads.

Working:

Answer: _____

12. A bakery used 30 bags of sugar to bake 6 cakes.

(a) Find the number of bags of sugar used per cake.

Working:

Answer: _____

(b) At this rate, how many bags of sugar are needed to bake 4 cakes?

Working:

Answer: _____

13. A car travelled 15 km using 3 litres of petrol.

(a) Find the rate of travel in kilometres per litre.

Working:

Answer: _____

(b) At this rate, how many litres of petrol would be needed to travel 35 km?

Working:

Answer: _____

Worksheet 1: Finding and Using Rate

Primary 5 Foundation Mathematics

Core Topic: Rate

Section C — Finding and Using a Rate (Q11-15)

14. It cost \$28.00 to run a machine for 7 minutes.

(a) Find the cost per minute.

Working:

Answer: _____

(b) At this rate, how much would it cost to run the machine for 6 minutes?

Working:

Answer: _____

15. A conveyor belt moved 18 boxes in 3 minutes.

(a) Find the number of boxes that moved in 1 minute.

Working:

Answer: _____

(b) At this rate, how many boxes would move in 6 minutes?

Working:

Answer: _____

Worksheet 1: Finding and Using Rate

Primary 5 Foundation Mathematics

Core Topic: Rate

Section D — Comparing Rates (Q16-20)

You are allowed to use a calculator for this section.

- 16.** 6 identical notebooks cost \$9.00. What is the cost of 12 such notebooks?

Working:

Answer: _____

- 17.** Aiman can wash 6 cars in 1 hour. At this rate, how many hours would he take to wash 24 cars?

Working:

Answer: _____

- 18.** A photocopier makes 30 copies in 3 minutes. At this rate, how many minutes would it take to make 60 copies?

Working:

Answer: _____

- 19.** 2 kg of sugar costs \$2.40. What is the cost of 10 kg of sugar?

Working:

Answer: _____

- 20.** A car uses 5 litres of petrol to travel 90 km. At this rate, how many litres of petrol would be needed to travel 180 km?

Working:

Answer: _____
